## ENVIRONMENTAL INFORMATION SURVEY

- A. GENERAL FACILITY INFORMATION
- -B. <u>HAZARDOUS MATERIALS</u> (Including Right-To-Know)
- C.\_\_STORAGE\_TANKS
- D. HAZARDOUS WASTE
- E. PCBs
- F. ASBESTOS
- G. AIR QUALITY
- H. WATER-QUALITY
- I. PESTICIDES
- J. SOLID WASTE
- K. RADIOACTIVE MATERIALS

ADDITIONAL INFORMATION / COMMENTS

PHOTO LOG SHEET

NOTE: If the response to a question is NO, an explanation must be provided on the ADDITIONAL INFORMATION/COMMENTS sheet(s). For responses designated with asterisks (\*\_\_\_\_\_\*), all YES

answers must be explained.

2119E/rk/ENVSUR

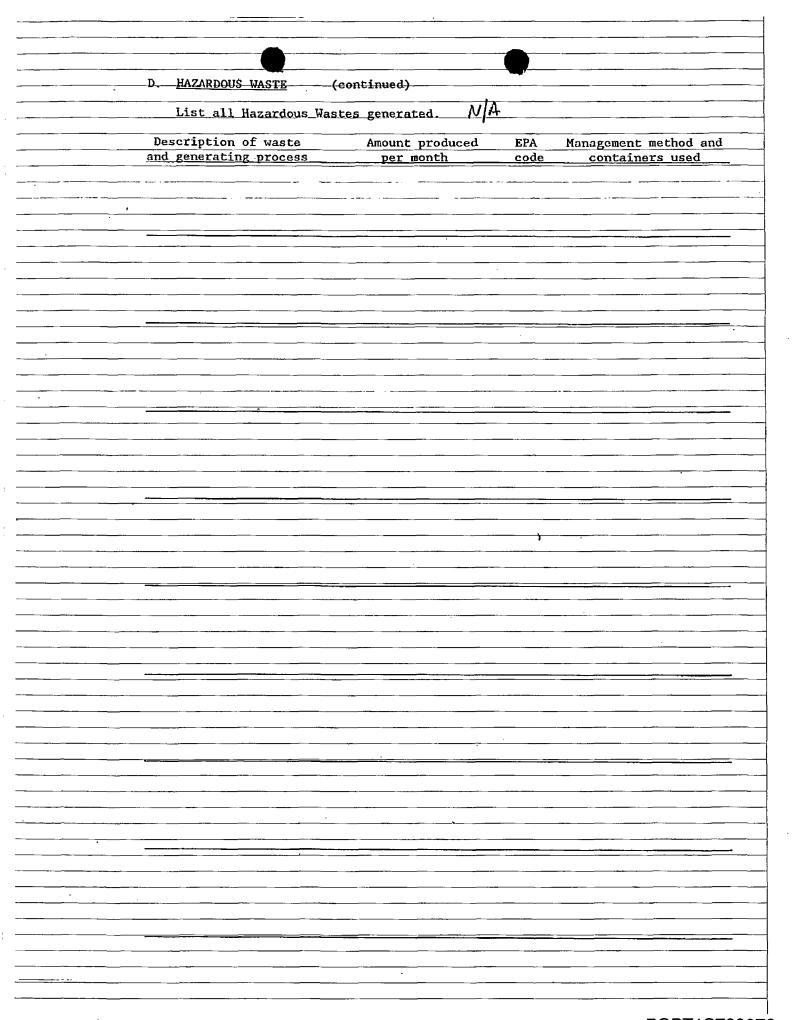

PORT OF PORTLAND
ENVIRONMENTAL_INFORMATION_SURVEY
A. GENERAL FACILITY INFORMATION
Facility: Terminal 1.
Address: 2060 NW FRONT AVE
PORTLAND, OREGON 97210
· · · · · · · · · · · · · · · · · · ·
OSFM Account NUMBER: 012782 EPA ID Number: N/A
Site contact: Ken Underhill Phone: 231-6000 Ext 492
Phone:
Describe-activities-at-facility:
Channel Maintenance for Army Corps of Engineers
Maintenance and Repair of Machineny
Storage area for other Parl facilities
SIC Code(s): 6512 4463
Number of employees at facility:
Is_a_written_Emergency_Response_or_Contingency_Plan_available?
Is a written Respiratory Protection Plan available for the facility? ICS BUT COULD NOT BE LOCKIED
Describe the security at the facility:
Site is completely fenced
Survey completed by: Karch Warlar-
Date(s): Feb. 12, 1990Phone: 796-0717

В.	HAZARDOUS MATERIALS (Including Right-To-Know)	
1.	Does the facility have a written Hazard Communication Program?	Yes
2.	Are employees trained on chemical use and the HazCom Program?	Yes
	If YES, are written_records_of_training_available?	Jes_
3.	Does the facility have an inventory of chemicals used or stored?	res
	If YES, include a copy attached	
4.	Are MSDSs available for all chemicals in use or storage?	No
.5.	Is personal protective equipment used when handling chemicals?	Yes
	If YES, describe: Welding, painting, using wind grinders	
	Fabrication of metal	
6.	Are chemicals stored in proper containers or safety cans?	Yes
7.	Are the containers	
	in good condition?kept closed?labeled properly?	No
8.	Are containers of flammable materials grounded?	No
9.	Any evidence of spills or leaks?	* 0N*
10.	Are containers of incompatible chemicals separated by a physical	
	barrier (dike, berm, wall, etc.)?	NA
11.	Do storage areas for containers have secondary containment?	No
12.	Are containers stored away from all types of drains?	Yes
13.	Is the storage area secure?	Yes
14.	Is a written Spill Control Plan available?	Tes
15.	Are spill control materials and/or equipment available?	Yes
	If YES, describe: 64- Walter - oil booms/absorbent pads (openty)	<del></del>
	sorbents; drums, mons	· · ·
	,	
If	NO to any question above, explain on ADDITIONAL INFORMATION/COMMENT	S sheet.
	- · · · · · · · · · · · · · · · · · · ·

	D	HAZARDOUS WASTE	
	1	Does the facility generate hazardous waste classified as N(	`
		·	· -
		Listed Waste?Ignitable?Corrosive?	
		Reactive?EP Toxic?	
		If YES to any of the above, list on following sheet.	
		Hazardous waste generator classification: Conditionally exempt	MA
		Small quantity	NIA
	-	Fully regulated	NA
		Is facility classified as a transporter of hazardous waste?	_NO
		Is facility classified as a TSD Facility?	NO.
	-2.	Types and sizes of containers used to store hazardous wastes:	
			•
····	3.	Are containers labeled with the words "Hazardous Waste"?	NA
		the Accumulation Date?	NA
<u> </u>		Date of oldest container:	
	-4.	Are containers in good condition?kept closed?	NA
	5,	Are containers of flammable wastes grounded?	N/A
	6.	Any evidence of spills or leaks?	* N A *
	7.	Are wastes compatible with containers?	MA
	8.	Are incompatible wastes placed in separate containers or stored	
		with a physical separation (dike, berm, wall, etc)?	NA
			N/) A
	<del>- 9, -</del>	Do-containers have secondary-containment?	-1417y
	10	Are containers stored away from all types of drains?	<u> </u>
	11.	Is the container storage area secure?	NA
	12.	Is the container storage area inspected weekly?	NA
	13.	Are spill control materials and/or equipment available?	NA
	-	If YES, describe:	
<del></del>			

E.	PCBs	-
1.	Number of PCB transformers_at_the_facility.	None
	a. Number which are pole-mounted:	
	b. Number which are pad-mounted:	
	c. Number which are in vaults:	<del></del>
2.	Number of non-PGB transformers at the facility.	
	a. Number which are pole-mounted:	_
	b. Number which are pad-mounted: T 506	
	c. Number which are in vaults:	
3.	Number of unknown transformers at the facility.	<u> </u>
	a. Number which are pole-mounted:	-
	b. Number-which-are-pad-mounted:	
	c. Numbor which are in vaults:	
4.	d. perhable transformer  Are all transformers properly labeled?	NO
5.	Do all transformers have containment (drip pans, etc.)?	ΝO
	o If containment is concrete curbing, is it adequately sealed?	NA
6:		Yes_
	Are any transformers located away from all drains?	No.
7.		Yes
8.		
	If YES, describe: borbend materials, maps	
9.	Any history of PCB incidents at the facility?	* <u>NO</u> *
10	. Number of capacitors at facilityPGB	0
	non-PGB	O
11	. Are there fluorescent lights at the facility?	Yes
	a. Any evidence of ballast leaks?	* No *
	b. Describe disposal procedures for ballasts.	·
<del></del>	None-currently	
	,	<del></del>

F. ASBESTOS	•
1. Age of facility/buildings (oldest).   burl 1920-1936	60-70 yrs
2. Has the facility been surveyed for asbestos?	parhally
a. When: Approximately 3 years ago 1986	J
b. By whom: All-Woste	
	Yes
3. Was any asbestos-containing material found?	165
a. Location(s) Ashestos pope covering - Steam Game.	_
pipe covering - dredge.	· 
b. Is material labeled?	110
c. Date of removal or abatement.	Upknown
Abatement method:	_
4. Is there-any-suspect asbestos-containing-material at facility?	Yes
a. Location(s) Cerling thes in trailer	
linoterm in officer area	
<u>certing hies in office area</u>	
5. Have employees received any training on asbestos?	NO
If YES, describe training, when it was done, and by whom.	
	· 
· · · · · · · · · · · · · · · · · · ·	

		· · · · · · · · · · · · · · · · · · ·
	G. AIR QUALITY	• .
	Does the facility	
	1generate air emissions of any type (dusts, fumes, vapors)?	Yes
	If YES, describe: Welding Fumes	
	painting rumes Ctrucks from SRY-once ayr	
	sandblashna	_
·	2emit Volatile Organic Compounds (VOCs) (such as solvents)?	Yes_
	If YES, describe: paint pumes	
		_
		minimal
·	Total Annual Quantity (tons per year):	DIVIXNOWN
	3dispense any fuels to trucks, autos, or other vehicles?  FULL Starmcvane, Forklifts	YES.
	4have an incinerator or burner?	<u> NO-</u>
	If YES, describe:	
	5have a steam plant or boiler?	NO
	If YES, describe:	
	•	_
	Fuel: NIA Annual Consumption: NIA	<b>_</b>
	Fuel:Annual Consumption:	
	·	
		`

H. WATER QUALITY	
Does_the_facility	
1discharge sanitary waste to a sewer system?	Yes
to a septic system?	NO
2have a storm water discharge system? Ranwaler	Yes
3have wastewater discharges (other than sanitary) that are	· ·
direct (NPDES permit)?	NO
indirect (to a POTW)?	NO
to a septic system?	ND
to a stormwater system?	NO_
4do any wastewater pretreatment?	<u>0 0</u>
If YES, describe:	
5have nearby bodies of water (wetlands, lakes, streams, etc)?	Yes
If YES, describe: Willzwielle Rwey	
6receive its drinking water supply from a municipal system?	Yes
bottled H2O  H2O Tower at 51/2a woll?	N9
7have any irrigation or similar wells?	NO .
If YES, descrîbe:	

I.	<u>PESTICIDES</u>	J. A
1.	Are pesticides used at facility now or in last two (2) years?	
	Type and Name When used	
2.	Are MSDSs avaiable for these materials?	NA
3.	Where have pesticides been applied on the property?	
4.	Are pesticide applicators trained and certified?	NIA
5.	What personal protective equipment is used by applicators?	
6.	Are pesticides stored at the facility?  Type and Name Where stored	NO
7.	Where else have pesticides been stored on the property?  N/A	
8.	Have any pesticides been spilled in the last twelve (12) months  If YES, explain	7 * NÔ ,
9.	Is there or has there ever been any mixing of pesticides?	N-Ø
10.	Is there any evidence of spills or leaks in the mixing areas?  How and where is application or mixing equipment cleaned?	* <u>NO</u>
	/V)/A-	-
12.	How and where are pesticide wastes and residues disposed of? $\mathcal{N}/\Delta$	

	COLID Hadrin	
	SOLID_WASTE	
1.	Does the facility have provisions for proper disposal of	
	non-hazardous, solid waste?	Yes
	Contractor(s): Gruellers Sanutany Bervice, Inc.	
2.	Are there any uncontained accumulations of solid waste,	
	garbage, or refuse at the facility?	* <u>\\{\O_</u> *
3,	Are any infectious_or_USDA/APHIS-regulated_wastes_generated,	
	stored, or handled at the facility?	*_NO_*
	If YES, describe wastes, how processed, and by whom.	
4.	Are any recycling programs in place (glass, paper, cardboard)?	المنت المناس
	If YES, describe: Steel and waste oil are recycled	
	1150	
	Are any waste reduction programs in place?	NIO
5.	Are any waste reduction programs in place?	_NO
5.	Are any waste reduction programs in place?  If YES, describe:	_NO
5.		_NO
5.		_NŌ
5.		_NÔ
5.		_NÔ
5.		_NÔ
5.	If YES, describe:	_NO
5.	If YES, describe:	NO
5.	If YES, describe:	NO
5.	If YES, describe:	NO
5.	If YES, describe:	NO
5.	If YES, describe:	_NÔ_
5.	If YES, describe:	NO
5.	If YES, describe:	NO
5.	If YES, describe:	NO
5.	If YES, describe:	

K. RADIOACTIVE MATERIALS
1. Are any radioactive materials (including instrument sources,
detectors, etc) used, stored, or handled at the facility?
If YES, describe materials, quantity, and use:
Texas Nuclear Product Meter - On the Dredge
4 curies - Caium 137
leak tested - I year
Don Mam Acken- responsible for leak testing
·

## ADDITIONAL INFORMATION / COMMENTS

<u>ITEM N</u>	OTES
	15D5 was not-found for Super Safety Solvent or hem-o-lene.
87 No ha	ot all containers were labeled as to contents, zard warning or manufacturer.
Dri	ost Flemmable materials stored in Flemmable closets im quantities of Flammable materials avenot stored at the site
	condary containment would be difficult because laterials are not stored in one location
<u> </u>	those ground to the cite moved ble and travefore do not have secondary containment indence of small spills on tanks and under neath tanks ken Underhill could not produce space plan. If believe he thought it was the general emergency response
	plen.
	Sile closs not generate hazardous woste so trend considerate transfer transfer trend waste. Therefore does not transfer to the transfer tr
F A	Steam Crane, dredge Oregon and booster  St. Helens have been surveyed for asbestos  Fountified asbestos removed Building has  not been surveyed for asbestos.

## ADDITIONAL INFORMATION / COMMENTS

<u>ITEM</u>	NOTES
G4	Nothing burned at the site
G5_	No on-site steam plant or boiler
H1	No septic system at site
H3	
H4	No wastewater pretreatment
++6	No drinking water well at site
. 1~1	No irrigation well all sile
<b>I</b> 5	No waste reduction progrems in piece at the second
H3 H4	No wastewater discharges generated at site  No wastewater protreatment  No drinking water well-at site  No irrigation well at site  No waste reduction progrems in place at the site

# General Comments

ken underhill reported that the 1500 gallons of Epoxy Polyamide Topecat stored at Termina 1 needed to be disposed the reported that the shelf life of the material had expired and would not be used at Terminal 1.

one drum of used greater and two drums of a oill glasoline mixture also need to be disposed.

Since Terminal 1 Functions as a storage area

For several Port facilities, many items appear

to be abendoned. These items include old

above ground storage tanks, 2 unknown

above ground storage tanks, 2 unknown

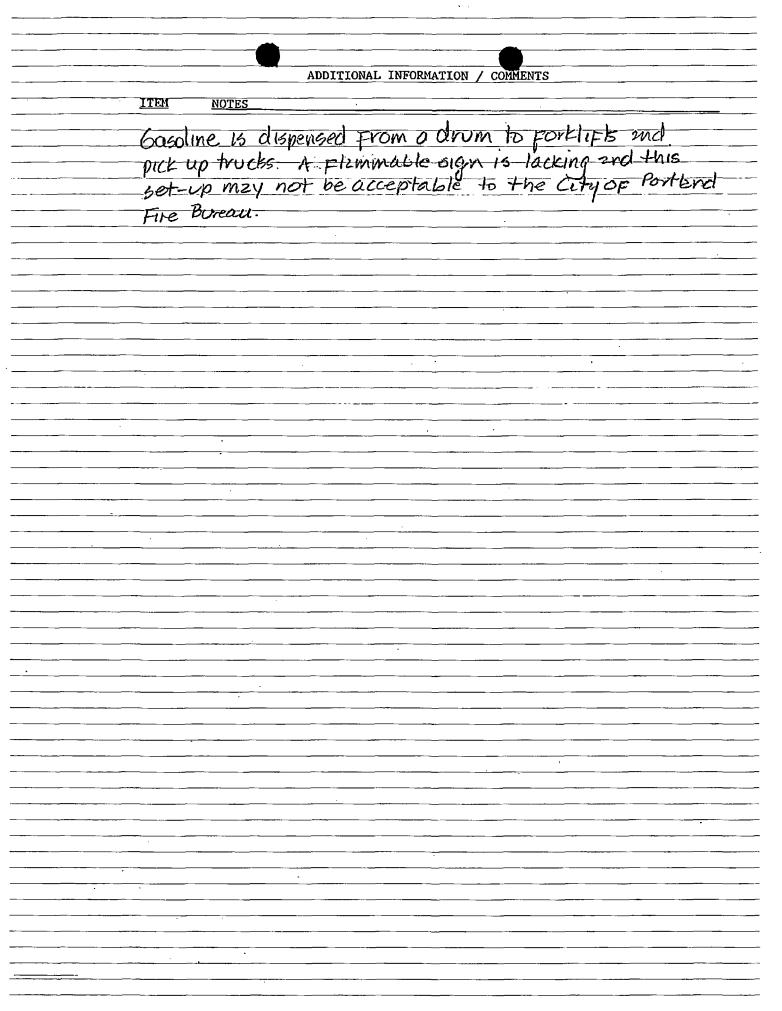

drums and pallets of light fixtures contains

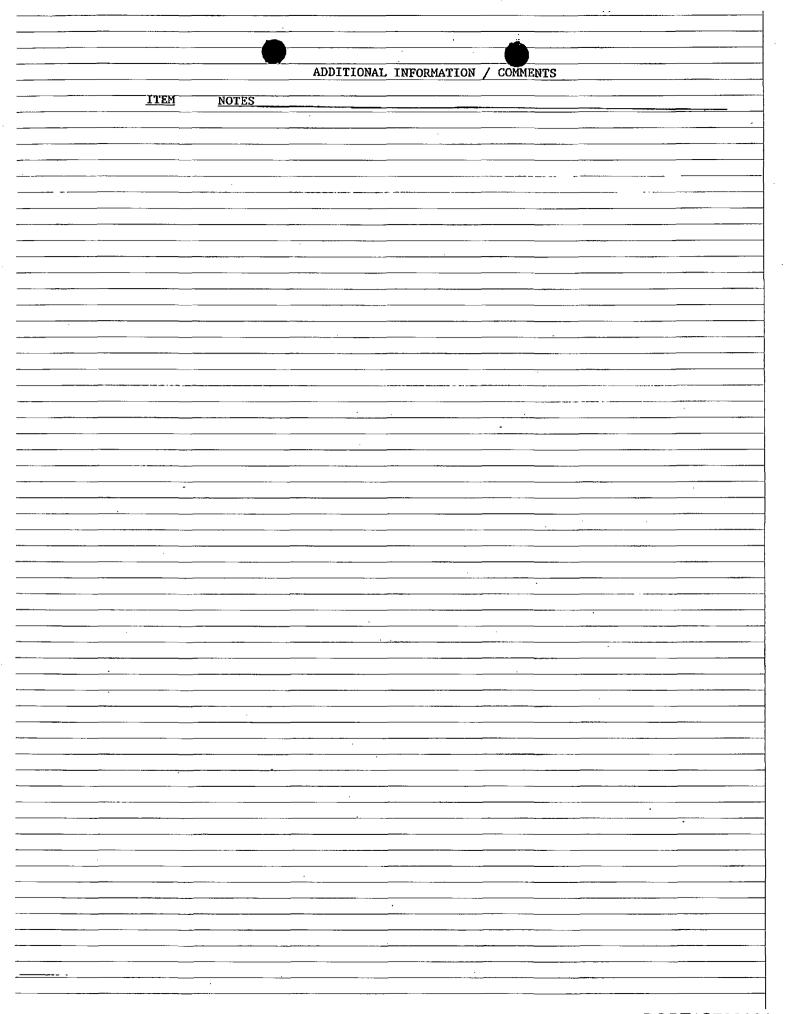

ballasts. The ballasts are labeled "PCB-Usolare

In Disposal"

Ken Underhill reported that he chocks chamical inventory sheet three times a year and returns MSDSs to Sandy G-for materials no longer used at Terminal 1.
